Mammoth Lakes, California

SEASON: JUNE 15 TO OCTOBER 15

VACATION IN THE HIGH SIERRAS

Throughout the area the Inyo Mule Deer and the California Mule Deer both abound. Many fine racks are taken during deer season.

Within a day's jaunt from your own secluded campsite you can easily fish or explore a half dozen trout filled lakes. The evenings spent by firelight and friendly fellowship will be long remembered.

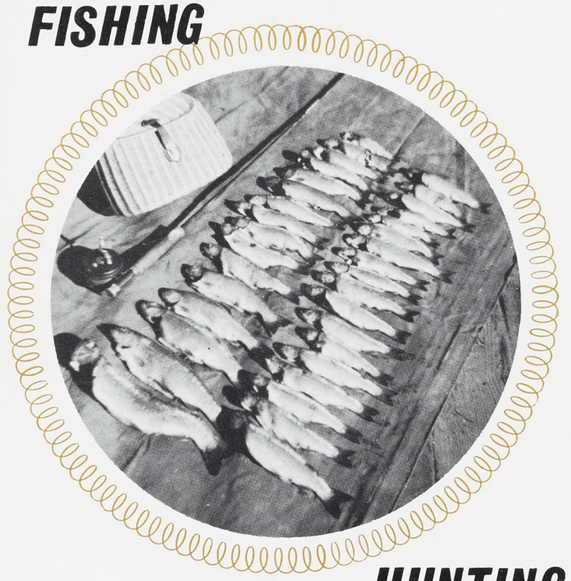
VACATION IN THE HIGH SIERRAS

Spend your vacation with a pack trip to the unsurpassed wilderness area surrounding Mammoth Lakes. Here the trails beckon you onward to such delightful places as Purple Lake, Virginia Lake, Tulleys Hole, Lake of the Lone Indian, Jackson, Peter Pandy, Beetlebug and Lost Keys Lakes. Virginia Lake produced the California record Golden trout — 9 lbs. and 14 ounces. Golden, Rainbow, Eastern Brook and Kamloop trout are all found in the Cascade Valley and Fish Creek basin. There are miles of excellent streams to tempt the fisherman, running the gamut from rushing cascades to quiet, meandering pools through lush, wild flower carpeted meadows.

FISHING



HUNTING

The children will long remember their first horseback trip along the picturesque trails of the High Sierra. Our saddle horses are well kept and safe for even the inexperienced rider. A pack trip requires no special equipment, just the usual camping gear. Our packers can pack everything you may want to include on your trip.
